DRAFT SETUP

Quick Draft Reference

Use this section when you are scanning for a position, type slot, or counter profile before a pick or ban.

Hard incompatibility: do not draft Clawitzer and Comfey together. Both champions attach to allies, and the draft scorer applies a heavy penalty to prevent the AI from pairing them.

BASIC — 0.6s attack timer

Double Hit

Double Hit: Basic attack. Hit 2 times. Each hit deals 16 + AD 42% AD as physical Normal damage.

SKILL 1 — 5s cooldown

Tickle

Tickle: Skill 1. Apply 2 stacks of Confusion for 4s. Confused Pokemon misfire their next Pokemon actions.

SKILL 2 — 6s cooldown

Thief

Thief: Skill 2. Deal 22 + AD 45% AD as physical Dark damage, then transfer 20% of one supported positive equipment stat from the target to Ambipom for 10s. Inventory and item procs are unchanged.

ULT — 65s cooldown

Fury Swipes

Fury Swipes: Ultimate. For 8s, gain AD 0% attack, Attack Speed 160% attack speed, and 65% critical chance.

PASSIVE — No cooldown

Passive - Technician

Passive - Technician: When Ambipom receives buffs from an allied Pokemon, it gains +18% movement speed for the same short buff window.

Thunder Shock

Thunder Shock: Basic attack. Deal 28 + AP 48% AP as magic Electric damage.

SKILL 1 — 11s cooldown

Flash

Flash: Skill 1. Emit a brilliant flash in a 42 aura, dealing 60 + AP 55% AP as magic Electric damage to nearby enemies. Enemies hit are silenced for 1.5s and slowed by 15% for 1.5s.

SKILL 2 — 13s cooldown

Searchlight Tail

Searchlight Tail: Skill 2. Light Ampharos's tail for 6s, gaining Move Speed +35% move speed. While lit, Luminous Pulse deals +100% damage; each enemy Pokemon hit extends the light by 1s, and the empowered pulse has a 50% chance to Paralyze for 2.5s.

ULT — 80s cooldown

Gigavolt Havoc

Gigavolt Havoc: Ultimate. Channel for 0.8s, then call lightning down in a 38 area for 500 + AP 100% AP as magic Electric damage. The strike leaves an Amped Zone for 6s; enemies inside are slowed by 25%, and Ampharos gains Attack Speed +70% attack speed while standing in it.

PASSIVE — No cooldown

Passive - Luminous Pulse

Passive - Luminous Pulse: Ampharos continuously senses nearby enemies and shares their positions with its team, informing attacks, retreats and movement and countering Weavile stealth and Shiftry camouflage. Every 5s, the aura pulses for 50 + 10% AP Electric magic damage and slows enemies for 1s. Searchlight Tail empowers these pulses.

RULES REFERENCE

DOTs and Status Effects

Move entries give exact numbers. This glossary explains what each recurring mechanic is for when reading drafts or comparing kits.

Burn	Damage over time, usually applied by Fire moves. Burn ticks once per second for its listed duration, and several Fire kits gain bonus effects against Burned targets.
Poison	Stacking Poison-type damage over time. Poison entries in move text list the stack count, damage per second, and duration.
Miasma	A Poison-family stack mechanic used by Arbok. Miasma builds stacks, can slow or detonate, and converts into Poison after enough stacks.

Bleed	Physical damage over time. Several Fighting or slashing kits use Bleed to punish extended trades.
Infestation	A rapid ticking damage state used by parasite or swarm-style effects. Read the move text for the damage and duration.
Paralysis	Long-duration Electric control. While Paralyzed, a target has periodic chances to be stunned, and some Electric champions deal extra damage to Paralyzed enemies.
Frozen	Hard crowd control from Ice moves. Frozen targets are temporarily unable to act for the duration listed in the move text.
Confusion	Stacking disruption used by Psychic and trickster kits. Confusion can convert into forced or erratic behavior depending on the applying move.
Sleep	A control state that can disable or set up healing windows. Frosmoth and Snorlax are the main Sleep users in this roster.
Stun	Short hard CC. Stunned targets cannot act until the stun expires.
Root / Bind	Movement control. Rooted or bound targets can be forced to stand still, sometimes while continuing to attack.
Taunt	Forces a target to attack the taunter and blocks skill use for the listed duration.
Silence	Prevents skill use while active. Some duel and challenge effects combine Silence with Root or Taunt.
Blind / Disarm	Basic attack suppression. These effects are strongest into BasicAttacker and CritCarry champions.
Anti-Heal	Healing reduction. This is a draft answer to Healer, HealReliant, and Sustain champions.
Soak	Water setup effect. Soaked enemies are treated as Water-altered targets for the relevant follow-up effects.
Illuminate	Starmie mark mechanic. Illuminated enemies take stronger follow-up effects from Starmie's abilities and are revealed to Starmie's allies.
Grassy Terrain	Area sustain and positional value. Grass teams often want fights to happen inside their terrain or aura zones.
Sticky Web	Area slow and anti-mobility tool. It is most valuable against Dive, HighMobility, and melee engage champions.
Protect / Guard	Temporary damage prevention or shielding. Treat these as timing tools that can waste burst windows.
Untargetable	A defensive state that temporarily removes the champion from normal targeting or follow-up windows.

DRAFT LANGUAGE

Strategy Trait Glossary

These labels come from the mod's strategy tables and are used for position logic, counter logic, and guide summaries.

AD Damage	Primary physical damage source.
AP Damage	Primary magic or special damage source.
Backline Carry	Needs space and protection; high payoff if left alone.
Basic Attacker	Scales heavily with attack speed, crit, and uninterrupted uptime.
Crit Carry	Physical carry that benefits from long fights and protection.
Dive	Can reach backline or bypass ordinary front-to-back fights.
DOT	Wins through damage over time, repeat hits, and status pressure.
Frontline	Can stand in first contact and absorb pressure.
Hard CC	Reliable crowd control for picks, peel, or engage.
Heal Reliant	Value drops sharply into Anti-Heal or burst.
Healer	Team sustain engine; protect it or draft anti-heal into it.
High Defense	Naturally punishes low-damage or basic-attack-heavy teams.
High Health	Can soak damage; vulnerable to TankBuster and percent HP damage.
High Mobility	Can reposition or evade; weak to HardCc and Sticky Web style tools.
Poke	Damages before full engage and pressures low mobility targets.
Single Target Assassin	Kills isolated or squishy targets quickly.
Squishy	High priority target if reachable.
Sustain	Wins longer fights through healing, shields, or repeated recovery.
Tank Buster	Draft answer into HighHealth or HighDefense frontline.
Team Buff	Raises ally output or durability; stronger with coordinated comps.
Zoner	Controls space and punishes enemies for walking through areas.
